Staff Nurse

Date: 05-Aug-2021 | Total: 170 Questions

Official Website: www.rojgarbee.com

---

1). The nurse decides to take an apical pulse instead of radial pulse. Which condition influences this? [Science]

A) Arrhythmia

B) 18 hours postoperative

C) Client in shock

D) Orthostatic changes

Answer: A client with an arrhythmia

2). Priority nursing intervention for a patient during immediate post-operative period? [Science]

A) Observing for haemorrhage

B) Maintaining a patent airway

C) Recording intake/output

D) Checking vital signs

rojgarbee.com

Answer: Maintaining a patent airway

3). Which type of nursing has a non-traditional setting for preventive and primary care? [Science]

A) Community health

B) Office nursing

C) Occupational nursing

D) Parish nursing

Answer: Community health nursing

4). Which clinical finding indicates the patient is experiencing hypokalaemia? [Science]

A) Oedema

B) Muscle spasms

C) Kussaumal breathing

D) Abdominal distention

Answer: Abdominal distention

5). Medication never given directly intravenously as a safety alert? [Science]

A) Potassium chloride

B) Lasix

C) Dextrose

D) Calcium Gluconate

Answer: Potassium chloride

6). Appropriate nursing action for a patient with a radium implant for cancer of cervix? [Science]

A) Restrict visitors

B) Lead-lined urine storage

C) Wear a lead apron

D) Avoid gluteal IM

rojgarbee.com

Answer: Wear a lead apron when giving care

7). Colour coding for Nitrous oxide cylinder is [Science]

A) Black

B) Black with white shoulders

C) French blue

D) Gray

Answer: French blue

8). In brain death all are seen except : [Science]

A) Diabetes incipidus

B) Apnoea

C) Constricted atropine pupils

D) Pulse unresponsive

Answer: Constricted atropine pupils

9). McBurney's point is located in which quadrant of abdomen? [Science]

A) Left upper

B) Left lower

C) Right upper

D) Right lower

Answer: Right lower

10). Size of cannula used for infusion in a 75-year-old knee replacement patient? [Science]

A) 16 gauge

B) 18 gauge

C) 20 gauge

D) 22 gauge

rojgarbee.com

Answer: 22 gauge

11). Most sensitive indicator of body fluid balance is [Science]

A) Daily weight

B) Serum sodium levels

C) Measured intake/output

D) Blood pressure

Answer: Daily weight

12). Findings on ECG as a result of decreased potassium level in the blood? [Science]

A) U-waves

B) Absent P-waves

C) Elevated T-waves

D) Elevated ST-segment

Answer: U-waves

13). Absence of informed consent can lead to which of the following charges? [Science]

A) Fraud

B) Assault and battery

C) Harassment

D) Breach of confidentiality

Answer: Assault and battery

14). Allen's test checks the patency of the [Science]

A) Ulnar artery

B) Radial artery

C) Carotid artery

D) Brachial artery

rojgarbee.com

Answer: Ulnar artery

15). Fingers pale, cool and capillary refill delayed in casted forearm indicates? [Science]

A) Nerve impairment

B) Reduced arterial supply

C) Normal finding

D) Venous stasis

Answer: Arterial blood supply to the fingers is reduced

16). During tracheostomy suctioning, suction time should be not more than; [Science]

A) 10 seconds

B) 20 seconds

C) 30 seconds

D) 40 seconds

Answer: 10 seconds

17). Used to assess the function of brain stem? [Science]

A) Cold calorie test

B) Glasgow coma scale

C) Braden scale

D) Intra cranial pressure

Answer: Cold calorie test

18). In Maslow's hierarchy of physiologic needs, greatest priority human need is; [Science]

A) Love

B) Elimination

C) Nutrition

D) Oxygen

rojgarbee.com

Answer: Oxygen

19). Site of intra muscular injection in an adult for Z-track technique? [Science]

A) Deltoid

B) Rectus femoris

C) Ventrogluteal

D) Vastus lateralis

Answer: Ventrogluteal

20). Bleeding is prolonged in all the following except: [Science]

A) Viper bite

B) Idiopathic thrombocytopenia

C) Haemophilia

D) Von-Willebrand disease

Answer: Viper bite

21). Parts of the pharynx having both respiratory and digestive functions? [Science]

A) Nasopharynx/Oropharynx

B) Oropharynx only

C) Oropharynx/Laryngopharynx

D) Laryngopharynx only

Answer: Oropharynx and laryngopharynx

22). Planning care for a patient with bone metastasized cancer in constant pain? [Science]

A) Reassure him

B) Let him do ADLs

C) Handle him gently

D) Complete care quickly

rojgarbee.com

Answer: Handle him gently when assisting with required care

23). Activity that will not stimulate Valsalva maneuver? [Science]

A) Stool softeners

B) Enema administration

C) Gagging

D) Lifting heavy objects

Answer: Use of stool softeners

24). Appropriate action when caring a patient with diagnosis of thrombophlebitis? [Science]

A) Heating pad

B) Elevate leg 90 degrees

C) Instruct on bedrest

D) Active ROM exercises

Answer: Instruct the client about the need for bedrest

25). Relevant knowledge about oxygen administration to a client with COPD? [Science]

A) 1-2 L/min for hypoxic stimulus

B) Medulla chemoreceptors

C) Nonbreathing mask

D) Pulse oximeter

Answer: Oxygen at 1-2 L/min is given to maintain the hypoxic stimulus for breathing

26). Care include during first 24 hours after thyroid surgery? [Science]

A) Checking back of dressing

B) Support head during ROM

C) Encourage ventilating feelings

D) Resume normal activities

rojgarbee.com

Answer: Checking the back and sites of operative dressing

27). True statement about chemotherapy (5FU) as an adjunct measure? [Science]

A) Local treatment

B) Affects normal and tumour cells

C) Complete cure

D) Palliative measure

Answer: It affects both normal and tumour cells

28). Nursing measure to avoid constriction on affected arm after mastectomy? [Science]

A) Avoid BP and tight clothing

B) ROM exercises once a day

C) Discourage washing

D) Arm below heart level

Answer: Avoid BP measurement and constricting clothing on the affected arm

29). Therapeutic nursing action when expressive aphasia is severe? [Science]

A) Anticipate wishes

B) Questions answered by head shake

C) Minimise silence

D) Speak every opportunity

Answer: Communicate by means of questions that can be answered by the client shaking the head

30). Excluded from the clinical pathway for a client with osteoarthritis? [Science]

A) Decrease calories

B) Warm baths

C) Slide items

D) Bend/stretch to reach items

Answer: Place items so that it is necessary to bend or stretch to reach them

31). Manifestations expected in Acute Lymphocytic Leukemia (ALL)? [Science]

A) Petechiae, alopecia

B) Anorexia, Insomnia

C) Anorexia, petechiae

D) Alopecia, bleeding gums

Answer: Anorexia, petechiae

rojgarbee.com

32). Nursing care following Transurethral resection of the prostate (TURP)? [Science]

A) Change abdominal dressing

B) Patency of cystotomy tube

C) Patency of three-way Foley's

D) Haemorrhage and infection

Answer: Maintaining patency of a three-way Foley's catheter for cystoclysis

33). Indicates post-TURP client understood discharge teaching? [Science]

A) Chair for hours daily

B) Call if urinary stream decreases

C) Void every three hours

D) Avoid exercise for 6 months

Answer: Call the physician if my urinary stream decreases

34). Life-threatening thrombocytopenia assessment in Leukemia? [Science]

A) Fever

B) Diarrhoea

C) Headache

D) Haematuria

rojgarbee.com

Answer: Haematuria

35). Expected use to prevent cerebral oedema after craniotomy? [Science]

A) Diuretics

B) Antihypertensive

C) Steroids

D) Anticonvulsants

Answer: Steroids

36). Most common cause of Esophagitis is [Science]

A) Myasthenia gravis

B) Glossoplegia

C) Duodenal ulcer

D) Reflux esophagitis

Answer: Reflux esophagitis

37). Bladder function expectation during spinal shock? [Science]

A) Normal

B) Atonic

C) Spastic

D) Uncontrolled

Answer: Atonic

38). Next assessment after vital signs in epidural anaesthesia client? [Science]

A) Headache

B) Bladder distension

C) Dizziness

D) Ability to move legs

rojgarbee.com

Answer: Ability to move legs

39). Retina is most sensitive at; [Science]

A) Optic disc

B) Periphery

C) Macula lutea

D) Fovea centralis

Answer: Fovea centralis

40). Cranial nerve with highest number of branches? [Science]

A) Vagus nerve

B) Trigeminal nerve

C) Facial nerve

D) None of these

Answer: Vagus nerve

41). Correct statement for node of Ranvier of nerve? [Science]

A) Neurilemma discontinuous

B) Myelin sheath discontinuous

C) Both discontinuous

D) Covered by myelin sheath

Answer: Myelin sheath is discontinuous

42). Parkinson's disease is caused by brain neurons using neurotransmitter: [Science]

A) Acetylcholine

B) Norepinephrine

C) Dopamine

D) GABA

rojgarbee.com

Answer: Dopamine

43). Gallow's traction is used for; [Science]

A) Fracture shaft of femur

B) Fracture neck of femur

C) Fracture humerus

D) Fracture tibia

Answer: Fracture shaft of femur

44). Most accurate oxygen delivery system available is; [Science]

A) Venturi masks

B) Nasal cannula

C) Partial nonrebreather

D) Simple face mask

Answer: The venturi masks

45). Used in the management of hyperkalaemia? [Science]

A) Insulin with glucose

B) Sodium bicarbonate

C) Potassium chloride

D) Magnesium sulphate

Answer: Insulin with glucose

46). ECG findings indicating presence of hypokalaemia? [Science]

A) Tall, peak T-wave

B) ST segment depression

C) Widening of QRS complex

D) Prolonged PR interval

rojgarbee.com

Answer: ST segment depression

47). Kaposi's sarcoma is associated with; [Science]

A) HPV

B) HTLV-I

C) HIV

D) Epstein Barr virus

Answer: Human immune deficiency virus

48). The normal mean pulmonary artery pressure is; [Science]

A) 10-15 mmHg

B) 15-20 mmHg

C) 20-25 mmHg

D) 25-30 mmHg

Answer: 15-20 mmHg

49). Manifestation of pyloric stenosis? [Science]

A) Projectile omitting

B) Regurgitation

C) Steatorrhea

D) Tenesmus

Answer: Projectile omitting

50). Abnormal sound heard on auscultation of chest? [Science]

A) Stridor

B) Rhonchus

C) Rale

D) Wheeze

rojgarbee.com

Answer: Rale

51). Finding expected in left sided heart failure? [Science]

A) Engorged neck veins

B) Dyspnoea

C) Abdominal distension

D) Tremors of hand

Answer: Dyspnoea

52). Moon face with central obesity is noticed in; [Science]

A) Addison's disease

B) Cushing's syndrome

C) Down syndrome

D) Turner's syndrome

Answer: Cushing's syndrome

53). Virus causing post-transfusion hepatitis? [Science]

A) Hepatitis A

B) Hepatitis B

C) Hepatitis C

D) Hepatitis D

Answer: Hepatitis C

54). Findings suggesting acute blood loss anaemia? [Science]

A) Exertional dyspnoea

B) Fatigue on exertion

C) Bradycardia at rest

D) Postural hypotension

rojgarbee.com

Answer: Postural hypotension

55). Venous emboli in DVT patient will be lodged in; [Science]

A) Heart

B) Lungs

C) Liver

D) Kidneys

Answer: Lungs

56). Vein used for central venous catherization? [Science]

A) Radial vein

B) Femoral vein

C) Basilic vein

D) Cephalic vein

Answer: Basilic vein

57). Chvostek's sign is an indication of; [Science]

A) Hypernatremia

B) Hypercalcemia

C) Hyponatremia

D) Hypocalcemia

Answer: Hypocalcemia

58). Myopathy is seen in all except; [Science]

A) X-linked rickets

B) Oncogenic osteomalacia

C) Nutritional osteomalacia

D) Cushing syndrome

rojgarbee.com

Answer: Cushing syndrome

59). Sprengel's shoulder is due to deformity of; [Science]

A) Scapula

B) Humerus

C) Clavicle

D) Vertebra

Answer: Scapula

60). Foetus check for woman treated with lithium during pregnancy? [Science]

A) Neural tube defects

B) Cardiac malformations

C) Urogenital abnormalities

D) Scalp defects

Answer: Cardiac malformations

61). Provides evidence of faecal pollution except; [Science]

A) Faecal streptococci

B) Coliform

C) Cl. Tetani

D) Enteropathogenic virus

Answer: Cl. Tetani

62). Most undesirable metal in drinking water is [Science]

A) Iron

B) Copper

C) Zinc

D) Lead

rojgarbee.com

Answer: Lead

63). Disinfecting action of chlorine on water is due to [Science]

A) Hydrogen Chloride

B) Hypochlorous acid

C) Hypochlorite ions

D) Hydrogen ions

Answer: Hypochlorous acid

64). A psychrometer is used to measure [Science]

A) Humidity

B) Air Velocity

C) Room temperature

D) Radiant heat

Answer: Humidity

65). Tertiary prevention needed in which stage of disease history? [Science]

A) Pre-pathogenesis

B) Pathogenesis

C) Prodromal

D) Terminal

Answer: Pathogenesis

66). False negative results in TB screening tools means test is not perfect in: [Science]

A) Effectiveness

B) Efficacy

C) Specificity

D) Sensitivity

rojgarbee.com

Answer: Sensitivity

67). What is Coronavirus? [Science]

A) Large family of viruses

B) Belongs to Nidovirus

C) Both (A) and (B)

D) None of these

Answer: Both (A) and (B) are correct.

68). Diseases related to coronavirus? [Science]

A) MERS

B) SARS

C) Both (A) and (B)

D) None of these

Answer: Both (A) and (B)

69). WHO Steps is used for [Science]

A) Communicable disease

B) Non-communicable

C) Immunodeficiency

D) Auto-immune

Answer: Non-communicable disease

70). Corpulence index is given by [Science]

A) Actual - Desirable

B) Actual / Desirable

C) Desirable / Actual

D) Height - 100

rojgarbee.com

Answer: Actual weight/Desirable weight

71). Leo Kanner is known for studies on: [Science]

A) Autism

B) Schizophrenia

C) Bipolar disorders

D) Personality disorder

Answer: Autism

72). Term for repeating ideas after they cease to be appropriate? [Science]

A) Perseveration

B) Mannerisms

C) Abstinence

D) Echopraxia

Answer: Perseveration

73). Effective action for child with ADHD? [Science]

A) Reward behaviour

B) Sedate the child

C) Aggressive punishment

D) Lengthy time out

Answer: Reward appropriate behaviour

74). Hippocrates classified mental disorders into [Science]

A) Major/minor illness

B) Psychosis/neurosis

C) Schizo/mania/depress

D) Mania/melanchol/phrenit

rojgarbee.com

Answer: Mania, melancholia and phrenitis

75). Belief that others, oneself or the world do not exist? [Science]

A) Primary delusion

B) Nihilistic delusion

C) Delusion of reference

D) Delusion of persecution

Answer: Nihilistic delusion

76). Extra pyramidal side-effects managed with these except: [Science]

A) Dopamine drugs

B) Anticholinergic

C) Antihistamines

D) Barbiturates

Answer: Barbiturates

77). Delirium is a disorder of [Science]

A) Consciousness

B) Perception

C) Memory

D) Thought

Answer: Consciousness

78). Appropriate initial goal for a client with bulimia? [Science]

A) Avoid shopping

B) Control impulses

C) Identify anxiety

D) Three meals per day

rojgarbee.com

Answer: Identify anxiety-causing situations

79). Appropriate response to substance abuse client saying "got high"? [Science]

A) Stop speaking

B) Reference losing job

C) Tell me more

D) It is illegal

Answer: Reference losing job for missing days

80). Highest care priority for a suicidal client? [Science]

A) Home environment

B) Own feelings

C) Future discussion

D) Refer to clergy

Answer: Exploring the nurse's own feelings about suicide

81). The colour of amniotic fluid is [Science]

A) Clear pale straw

B) Dark colour

C) Yellow colour

D) None of these

Answer: Clear pale straw colour

82). Who discovered the Partograph? [Science]

A) Dr. R.H. Philpoter

B) Dr. A.L. Mudaliar

C) Dr. William Show

D) Dr. Shirodkar

rojgarbee.com

Answer: Dr. R.H. Philpoter

83). Why is bed rest essential in pre-eclampsia? [Science]

A) Prevents eclampsia

B) Mobilizes tissue fluid

C) Prevents premature labour

D) Improves circulation

Answer: It improves blood circulation and decreases oedema

84). Hazard of induction of labour with Pitocin? [Science]

A) BP elevation

B) Infection

C) Rupture of uterus

D) Rupture of membrane

Answer: Rupture of uterus

85). Additional calories for pregnant women as per WHO? [Science]

A) 300 K. Calorie

B) 500 K Calorie

C) 1000 K Calorie

D) 100 K Calorie

Answer: 300 K. Calorie

86). Test commonly used for sperm motility and activity? [Science]

A) Protein electrophoresis

B) CMP test

C) PCR test

D) Hohner test

rojgarbee.com

Answer: Hohner test

87). Levels of HCG typically peak at what gestational age? [Science]

A) 100,000 mIU at 10 weeks

B) 10,000 mIU at 10 weeks

C) 10,000 mIU at 20 weeks

D) 100,000 mIU at 40 weeks

Answer: 100,000 mIU/mL at 10 weeks

88). Care plan for placenta abruptio includes assessment for: [Science]

A) Jaundice

B) Hypovolemic shock

C) Convulsions

D) Hypertension

Answer: Hypovolemic shock

89). Teaching area mother most responsive to postpartum? [Science]

A) Family planning

B) New-born care

C) Community support

D) Perineal care

Answer: New-born care

90). Expected effect of Magnesium sulphate for PIH? [Science]

A) CNS depression

B) Decreased acidity

C) Onset of contractions

D) Decrease bowel movement

rojgarbee.com

Answer: CNS depression

91). Cultural traits are acquired through- [India GK]

A) Learning

B) Imitation

C) Socialization

D) Contact

Answer: Socialization

92). Family where offspring inherit mother's name is called? [India GK]

A) Matronymic

B) Patronymic

C) Matripotestal

D) Matrilineal

Answer: Matronymic

93). The word 'Sociology' is made up of two words: [India GK]

A) Societies and Logy

B) Societia and Logistia

C) Socious and Logos

D) Socia & Logos

Answer: Socious and Logos

94). Three-tier system of Panchayati Raj recommended by: [India GK]

A) Kaka Kalelkar

B) Simon Commission

C) Balwant Rai Mehta

D) Jai Prakash Narayan

rojgarbee.com

Answer: Balwant Rai Mehta Committee

95). Items allowed on a clear-liquid diet? [Science]

A) Vegetable juices

B) Custard

C) Sherbet

D) Bouillon

Answer: Bouillon.

96). Food included in diet for iron deficiency anaemia? [Science]

A) Nuts and fish

B) Oranges and leafy veg

C) Butter

D) Sugar

Answer: Oranges and dark green leafy vegetables

97). Foods to limit for hyperkalaemia? [Science]

A) Grapes

B) Carrot

C) Green beans

D) Lettuce

Answer: Green beans

98). Behaviourism, 'the science of behaviour' proposed by: [World GK]

A) Sigmund Freud

B) Erik Erickson

C) J.B. Watson

D) Ivan Pavlov

rojgarbee.com

Answer: J.B. Watson

99). Operant conditioning was proposed by: [World GK]

A) Ivan Pavlov

B) B.F. Skinner

C) Sigmund Freud

D) Abraham Maslow

Answer: B.F. Skinner

100). Gestalt is a German term meaning: [World GK]

A) Self-reliance

B) Good form

C) Internal conflicts

D) Meaning

Answer: Good form

101). Defining characteristic of living organisms? [Science]

A) Growth

B) Ability to make sound

C) Reproduction

D) Response to stimuli

Answer: Response to external stimuli

102). Binomial nomenclature first issued in [Science]

A) Systema Naturae

B) Genera Plantarium

C) Genera Animalium

D) Historia Plantarium

rojgarbee.com

Answer: Systema Naturae

103). Centromere is required for [Science]

A) Transcription

B) Crossing over

C) Cytoplasmic cleavage

D) Chromosome movement

Answer: Movement of chromosomes towards poles

104). Plasma membrane helps in [Science]

A) Osmoregulation

B) Protein synthesis

C) Nucleic acid synthesis

D) None of these

Answer: Osmoregulation

105). The bacterial cell wall is made up of [Science]

A) Cellulose

B) Hemicellulose

C) Peptidoglycan

D) Glycogen

Answer: Peptidoglycan

106). Extranuclear DNA in cytoplasm found inside: [Science]

A) Golgi bodies

B) Lysosomes

C) Vacuoles

D) Mitochondria

rojgarbee.com

Answer: Mitochondria

107). One turn of helix in B-form DNA is approximately [Science]

A) 20 nm

B) 0.34 nm

C) 3.4 nm

D) 2 nm

Answer: 3.4 nm

108). In meiosis, the chromosomes replicate during [Science]

A) Prophase

B) Metaphase

C) Anaphase

D) Interphase

Answer: Interphase

109). Study of body viscera is called [Science]

A) Angiology

B) Conchology

C) Splanchnology

D) Rhinology

Answer: Splanchnology

110). Advice on nutritional requirements is connected with [Science]

A) Medicine

B) Nursing

C) Physiotherapy

D) Dietetics

rojgarbee.com

Answer: Dietetics

111). Viral disease known from prehistoric times? [Science]

A) Pneumonia

B) Small pox

C) Poliomyelitis

D) Both (B) and (C)

Answer: Both (B) and (C)

112). Genetic material of virus is [Science]

A) DNA

B) RNA

C) DNA or RNA

D) None of these

Answer: DNA or RNA but not both

113). Botulism is a [Science]

A) Saprophytic poisoning

B) Parasitic disease

C) Disease in organisms

D) None of these

Answer: Type of food poisoning due to saprophytic bacterium

114). Marsh gas is produced by [Science]

A) Mycoplasma

B) Myxobacteria

C) Methanogens

D) Halophiles

rojgarbee.com

Answer: Methanogens

115). Sexual reproduction in eubacteria by [Science]

A) Transformation

B) Transduction

C) Conjugation

D) All of these

Answer: All of these

116). Symbiotic association of fungi and algae is [Science]

A) Lichen

B) Mycorrhiza

C) Mycoplasma

D) Both (A) and (B)

Answer: Lichen

117). Penicillin is got from an [Science]

A) Alga

B) Bacterium

C) Fungus

D) Protozoa

Answer: Fungus

118). Edible part of ginger is [Science]

A) Corm

B) Rhizome

C) Bulb

D) Tuber

rojgarbee.com

Answer: Rhizome

119). Guava fruit is a [Science]

A) Pome

B) Berry

C) Drupe

D) Hesperidium

Answer: Berry

120). Which is an oilseed plant ? [Science]

A) Sunflower

B) Hibiscus

C) Marigold

D) Rose

Answer: Sunflower

121). God figure depicted in Indus Valley seal? [India GK]

A) Agni

B) Indra

C) Varuna

D) Pashupati

Answer: Pashupati

122). Who was the founder of Jainism? [India GK]

A) Rishabha

B) Mahavira

C) Arishtanemi

D) Parsavanatha

rojgarbee.com

Answer: Rishabha

123). Kingdom in Deccan after the Mauryas? [India GK]

A) Pallavas

B) Cholas

C) Satavahanas

D) Vakatakas

Answer: Satavahanas

124). Mughal Empire in India was founded by [India GK]

A) Akbar

B) Babar

C) Shahjahan

D) Aurangzeb

Answer: Babar

125). Qutub Minar structure completed by [India GK]

A) Aram Shah

B) Iltutmish

C) Qutbuddin Aibak

D) Muhammad Tughlaq

Answer: Iltutmish

126). Swaraj as national demand first made by [India GK]

A) Chittaranjan Das

B) Jawaharlal Nehru

C) Dadabhai Naoroji

D) Bal Gangadhar Tilak

rojgarbee.com

Answer: Dadabhai Naoroji

127). State Legal advisor provided by Constitution? [India GK]

A) Attorney General

B) Advocate General

C) Solicitor General

D) None of these

Answer: Advocate General

128). Can be abolished, but not dissolved? [India GK]

A) Rajya Sabha

B) Municipal Bodies

C) State Legislative Council

D) None of these

Answer: State Legislative Council

129). Members of State Public Service Commission appointed by: [India GK]

A) President

B) Prime Minister

C) Governor

D) Chairman, UPSC

Answer: Governor

130). Which of the following is a chemical change? [Science]

A) Rusting of iron

B) Tempering of iron

C) Melting of iron

D) Bending of iron

rojgarbee.com

Answer: Rusting of iron

131). Electric current is measured by [Science]

A) Anemometer

B) Voltmeter

C) Ammeter

D) Commutator

Answer: Ammeter

132). Red blood corpuscles are formed in [Science]

A) Liver

B) Small intestine

C) Kidneys

D) Bone-marrow

Answer: Bone-marrow

133). Aluminium salt used to stop bleeding is [Science]

A) Aluminium nitrate

B) Aluminium sulphate

C) Potash alum

D) Aluminium chloride

Answer: Potash alum

134). World Trade Organisation is new name of [World GK]

A) World Bank

B) IMF

C) GATT

D) IFC

rojgarbee.com

Answer: GATT

135). Main objective of a firm is to maximize [India GK]

A) Investment

B) Production

C) Profit

D) Employment

Answer: Profit

136). Year is longest on [World GK]

A) Mercury

B) Venus

C) Earth

D) Jupiter

Answer: Jupiter

137). Inactive gas present in the atmosphere is [Science]

A) Nitrogen

B) Argon

C) Water vapour

D) Oxygen

Answer: Argon

138). Islands of Seychelles are located in the [World GK]

A) Arctic Ocean

B) Atlantic Ocean

C) Indian Ocean

D) Pacific Ocean

rojgarbee.com

Answer: Indian Ocean

139). The main region of Sunderbans is [India GK]

A) Ganga-Brahmaputra

B) Ganga-Godavari

C) Mahanadi delta

D) None of these

Answer: Ganga-Brahmaputra delta

140). Rihand hydroelectric project located in? [India GK]

A) U.P.

B) M.P.

C) H.P.

D) Maharashtra

Answer: U.P.

141). Himachal's highest state sports award? [HP GK]

A) Arjuna Award

B) Dronacharya Award

C) Parshuram Award

D) None of these

Answer: Parshuram Award

142). Himalaya Par Lal Chhaya' book written by [HP GK]

A) Desh Raj Sharma

B) Shanta Kumar

C) Rahul Sankrityayan

D) T.S. Negi

rojgarbee.com

Answer: Shanta Kumar

143). HP person served as both CM and Governor? [HP GK]

A) Dr. Y.S. Parmar
